Technical Program Manager | AI Platforms & Enterprise Systems |
Agile Delivery, SDLC, Stakeholder Management | Built AI-powered
platforms driving 70% faster dev cycles | MEM@USC Viterbi
United States

Summary

Email: chhavi.j269@gmail.com | Location: Los Angeles, CA (Open to Relocation) AI and Enterprise Systems-focused Technical Program Manager with 1+ years of experience using Jira, Gemini API, SQL, Agile, and MS Project to lead cross-functional teams in solving hard operational and technical problems. Career Accomplishments:

- Led end-to-end SDLC for a 50+ partner AI-powered platform, cutting development time by 70% and improving data reliability by 35% across a 4-engineer team-
- Secured manufacturing approval for a \$7.8B energy plant by delivering 3 procurement proposals in 5 months as a standalone contributor-
- Redesigned enterprise workflows across 3 programs, improving operational efficiency by 20% and accelerating executive decision-making by 40%-
- Reduced procurement cycle time by 20% and identified 15% cost savings by benchmarking 10+ vendors across renewable energy products

I'm looking for my next career opportunity that focuses on building and scaling AI-powered platforms and enterprise systems at companies where technical rigor meets real user impact. In particular, I excel in work environments that reward ownership and cross-functional execution. Given my Technical Program Manager background, I believe I'm a great candidate for a TPM I or Associate TPM role at a company like Google, Meta, or Microsoft. Contact me at chhavi.j269@gmail.com to discuss in deeper detail how I might add business value to the team.

Experience

USC Viterbi K-12 STEM Center

Technical Program Manager (Systems Analyst)

February 2026 - Present (4 months)

As the Technical Program Manager at USC Viterbi K-12 STEM Center, I led end-to-end SDLC delivery for SCALE, a partner management platform serving 50+ K-12 schools and community organizations across Greater Los Angeles. I

cross-functionally coordinated and defined the roadmap, OKRs, and execution strategy from inception to production.

-> Cut development time by 70%+ by launching a Gemini API-powered chatbot to validate usability and UX for non-technical users via A/B testing

-> Improved partner data reliability by 35% by building a SQL/Python pipeline standardizing 1,500+ documents across 50+ partner organizations

-> Reduced deployment risks across 3 integration points by triaging bugs and enforcing QA milestone gates

-> Delivered weekly program updates including KPIs, risks, decision logs, and execution status to cross-functional stakeholders

Daily Trojan

Diversity, Equity, Inclusion and Accessibility (DEIA) Committee Member
September 2025 - December 2025 (4 months)

Los Angeles, California, United States

University of Southern California

1 year 6 months

Course Producer (Program Coordinator)

August 2025 - December 2025 (5 months)

Los Angeles, CA

As Course Producer for Engineering Economics at USC Viterbi, I owned end-to-end academic program delivery, coordinating between faculty, TAs, and 35+ students to ensure smooth course operations, grading workflows, and structured stakeholder communication.

-> Reduced grading turnaround time by 30% by building automated Excel templates with validation rules and performance trackers

-> Eliminated calculation errors by standardizing grading formulas and submission workflows across 35+ students

-> Managed cross-functional coordination between faculty, TAs, and students to maintain structured communication and on-time delivery throughout the semester

Graduate Assistant (Program Manager)

July 2024 - July 2025 (1 year 1 month)

California, United States

As Program Manager at USC Rossier School of Education, I owned operational delivery across 3 programs, partnering with directors and faculty to

redesign workflows, surface bottlenecks early, and translate operational data into executive-level insights.

- > Increased operational efficiency by 20% across 3 programs by redesigning 5 workflows and eliminating redundant steps
- > Expedited director review time by 40% by synthesizing operational data into executive briefs using Excel
- > De-risked 2 program deadlines by surfacing bottlenecks early via a resource tracker, enabling leadership to reallocate resources sooner

USC Viterbi K-12 STEM Center

3 months

Discover Engineering Teacher Assistant

June 2025 - July 2025 (2 months)

Los Angeles, CA

As Discover Engineering TA and STEM Curriculum Coordinator at USC Viterbi K-12 STEM Center, I supported both frontline student instruction and backend curriculum infrastructure by mentoring 30+ pre-college students in hands-on STEM projects while standardizing the resource library that now powers the SCALE platform across 50+ Greater LA partners.

- > Standardized 800+ STEM lesson plans across 50+ partners in Greater Los Angeles, reducing teacher prep time by 60%
- > Supervised and mentored 30+ students as TA for USC's Discover Engineering pre-college program, facilitating hands-on projects in robotics, coding, and 3D printing
- > Coordinated 2 STEM programs serving 100+ students by managing cross-functional collaboration between engineers and faculty

STEM Curriculum Coordinator and Archivist

May 2025 - July 2025 (3 months)

Los Angeles, CA

USC Suzanne Dworak-Peck School of Social Work

Team Lead/Data Collector

December 2024 - March 2025 (4 months)

As Team Lead for a cross-institutional research initiative between USC, UCLA, and LAHSA, I led data collection efforts contributing to the LAHSA Commission consensus report - a landmark governance study recommending the systemic

restructuring of Los Angeles County's homelessness response across housing, shelter, and service programs.

- > Led a team contributing primary data collection to the LAHSA Commission consensus report recommending fundamental restructuring of LA's \$800M+ homelessness response system

- > Coordinated cross-institutionally across USC and UCLA research teams to ensure data integrity and submission timelines were met

Self Employed

Project Management Associate

June 2023 - December 2023 (7 months)

Maharashtra, India

As a freelance Project Management Associate, I independently owned end-to-end delivery for two clients across energy manufacturing and the nonprofit sector, managing requirements gathering, stakeholder alignment, and full delivery accountability with no senior oversight.

- > Secured manufacturing approval for a \$7.8B energy plant by delivering 3 PRDs and procurement proposals as a standalone contributor in 5 months

- > Shipped a redesigned nonprofit website in 2 months by owning end-to-end delivery across requirements gathering, improving organizational visibility and digital presence

Enpro Industries Pvt Ltd

New Business Development Intern

August 2022 - January 2023 (6 months)

As a New Business Development Intern at Enpro Industries, I supported renewable energy procurement and client development, owning vendor benchmarking, supplier evaluation, and communication workflows across 4 client engagements totaling \$550K+ in contracts.

- > Identified 15% cost savings by benchmarking 10+ vendors using structured evaluation frameworks for renewable energy products

- > Accelerated procurement cycle time by 20% by implementing a structured supplier analysis and evaluation process

- > Reduced vendor response time by 25% by formalizing communication workflows and building a centralized tracking mechanism

- > Coordinated requirements across 4 client presentations, aligning internal teams and external stakeholders for \$550K+ in contracts

Aaroh Music Club
Marketing & Content Coordinator
August 2020 - May 2021 (10 months)
Pune City

Entrepreneurship Development Cell, VIT Pune
Content and Curation Coordinator
August 2020 - May 2021 (10 months)
Pune District

Student Council VIT PUNE
1 year 10 months
Aesthetics Coordinator
June 2020 - May 2021 (1 year)

Aesthetics Sub Coordinator
August 2019 - May 2020 (10 months)
